#### Move to Monthly Publications

From January 2010 the *Cochrane Database of Systematic Reviews (CDSR)* and the 'About The Cochrane Collaboration' moved to a monthly publication. David Tovey, Editor in Chief of *The Cochrane Library*, believes that the increased publication frequency means that we will be able to publish new evidence more rapidly, with more manageable publication deadlines and opportunities to spread the workload.

For new submission and publication deadlines please visit <http://www.cc-ims.net/support/crgs/publication-frequency/new-publication-dates>
