

## 2025

Convenors: Asbjørn Hróbjartsson, Isabelle Boutron, Julian Higgins and Matthew Page

Coordinators: Camilla Hansen Nejstgaard, Christoffer Bruun Korfitsen (Coordinator substitute)

## Highlight: Publication of the new ROBINS-E tool (Risk Of Bias In Non-randomized Studies - of Exposures)

### Research and development

- A first draft of version 2 of the ROBINS-I (Risk Of Bias In Non-randomised Studies - of Interventions) tool is now [available](#).
- Leading the work on developing a Tool for Addressing Conflicts of Interest in randomized Trials ([TACIT](#))
- [Paper](#) in Environment International on ROBINS-E
- [Paper](#) in the BMJ on RoB NMA
- [Paper](#) in Journal of Clinical Epidemiology on SPIRIT 2025 and CONSORT 2025
- Leading the update of the [PRISMA-P](#) reporting guideline

### Best practice and guidance

- Contribute to updating [SPIRIT](#) and [CONSORT](#) reporting guidelines, updated 2025 versions now [available](#).

### Methods implementation

- Workshop on assessing risk of bias in randomized trials and non-randomized studies of interventions in Melbourne, Australia, in March 2024 (30 attendees)
- Workshop on assessing risk of bias in non-randomized studies of interventions in Melbourne, Australia, in February 2025 (30 attendees)
- Updated the Cochrane Handbook [chapter](#) on assessing risk of bias due to missing evidence, which now directly refers to the ROB-ME [tool](#) (published August 2024)
- Available to support Cochrane Reviews
