**Highlight:**  
The Economic Methods Group focuses on the development, application, and integration of economic evaluation methods within Cochrane systematic reviews.

#### Research and development

- Collectively and individually, we continue to drive methods in this space ensuring that economic evidence can be incorporated into evidence synthesis a robust manner.

#### Best practice and guidance

- [Technical Supplement to Chapter 20: Integrated full systematic review of economic evidence | Cochrane](#) is available online.

#### Methods implementation

- [CCEMG - EPPI-Centre Cost Converter v.1.4](#) has now been updated and is openly available for use
- We remain available to support Cochrane Reviews
