

Cochrane Methods Rapid Reviews

2025

Convenors: Declan Devane, Chantelle Garritty, Gerald Gartlehner, Ursula Griebler, Candyce Hamel, Chris Kamel, Valerie King, Barbara Nussbaumer-Streit

Highlight: Updated Cochrane Rapid Review Methods Guidance published in the BMJ early 2024

Research and development

- Development of guidance for rapid reviews to inform clinical research. The paper is currently under peer-review, but protocol and guidance documents are already openly available:
 - [Protocol](#)
 - [Guidance](#)
 - [Report form](#)
 - [Worked example](#)

Best practice and guidance

- Publication of the final papers of the rapid review methods series in BMJ EBM:
 - [Considerations and recommendations for evidence synthesis in rapid reviews](#)
 - [Interim guidance for the reporting of rapid reviews BMJ Evidence-Based Medicine](#)
 - [Rapid scoping reviews](#)
- Publication of the [updated Cochrane Rapid Reviews Methods Guidance in BMJ](#)
- [Key Concepts of Rapid Reviews published in Journal of Clinical Epidemiology](#)

Methods implementation

- Cochrane Learning Live Webinar Series on [Rapid Review methods](#)
- Development of a [Cochrane Interactive Training Module on Rapid Reviews](#)
- Start with the development of a Cochrane Rapid Review Handbook.
